

MR Dixie Land Delight

Date of Birth: 03/03/2018
Registration 1: CI316035
Owner: Nathan Murray

Courtesy of Murray Ranch

Dixie is going to get euthanatized. She said her creatinine is double digits. The likelihood of recovery is very slim. It would likely take 1 week of aggressive hydration and a minimum of two days of stable creatinine measurements to send her home. The vet said her prognosis with the best care remains not good. She doesn't think she had hardware disease. She thinks that she experienced a choking event. The choking event led
